EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: **Claim 29**, line 4, "is" was changed to **-in-**.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowing this application is the specific recitation in claim 1 of a multiplexer switch that includes at least one field effect transistor, an isolation circuit and a drive circuit whereby the isolation circuit electrically isolate the drive circuit from the field effect transistor to limit energy coupled to the signal line through the at least one field effect transistor to below levels that could initiate an ignition of the potentially explosive environment of the tank . Claim 11 recites the multiplexing system that includes a multiplexer switch for each sensor and includes a drive circuit whereby the isolation circuit electrically isolate the drive circuit from the field effect transistor to limit energy coupled to the signal line through the at least one field effect transistor to below levels that could initiate an ignition of the potentially explosive environment of the tank. Claim 29 recites the method of multiplexing an excitation signal from a common excitation

circuit to a plurality of sensors disposed in a tank containing a potentially explosive environment and includes the steps of disposing a multiplexer switch in series with each signal line; isolating each multiplexer switch from a corresponding drive circuit to limit energy to below levels that could initiate an ignition of the potentially explosive environment; and controlling the drive circuit to multiplex the excitation signal from the excitation circuit to selected sensors of the plurality through the corresponding multiplexer switches.

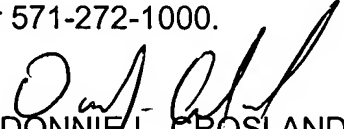

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
